

Garth came by and spoke with my son and I and explained how powerful words are and how they make you feel (high or low) and no matter how strong a word may be, the power lies with you, not letting words affect you, you are in charge of you and no one can control you if you allow it. This was a very powerful tool for my son and I witness him using it, my son has been through a lot this year, seeing his parents split, moving from his home and to add to all of this, kids that live on the same street and go to the same school, started teasing him about the his parents split, taunting him, bullying him and passing nasty racist remarks. My child was devastated. I am very grateful to Garth for coming over and speaking to him and the idea of the permission slip is wonderful it reminds Nicholas that he is in charge of himself, Garth is a wonderful speaker.

I see the changes Nicholas has made and how he takes control of the words, this is a very powerful tool for kids who are being bullied.

I am forever grateful and thankful that my son was given this opportunity and I pray to God that he gives Garth the strength to reach out to other kids who desperately need his help.

God bless you.
