Dear Garth Riley,

On behalf of the students and staff at R.H. McGregor, I would like to thank you for your powerful Sticks and Stones May Break My Bones presentation.

At a time when bullying is an issue in all schools, it is refreshing to have students learn interactive strategies that will assist them in dealing with challenging situations. Your approach was upbeat, child focused and fun. Our student evaluation forms reflect the positive impact of your presentation.

Since your visit, our Safe Schools committee decided that they would like to invite you back in the Fall to inservice our staff. It is with great pleasure and enthusiasm that I have shared your programme with other administrators.

Sincerely,

A handwritten signature in blue ink that reads 'Kiki Karailiadis'.
